Structured French Tuition

Thank you

Cher lecteur,

On behalf of the team, I wanted to personally thank you for your interest in our services. It means a lot to us.

Our mission is to offer not less than the best solutions you can find to learn French. I'm conscious that it might sound presumptuous but that is really what we strive for.

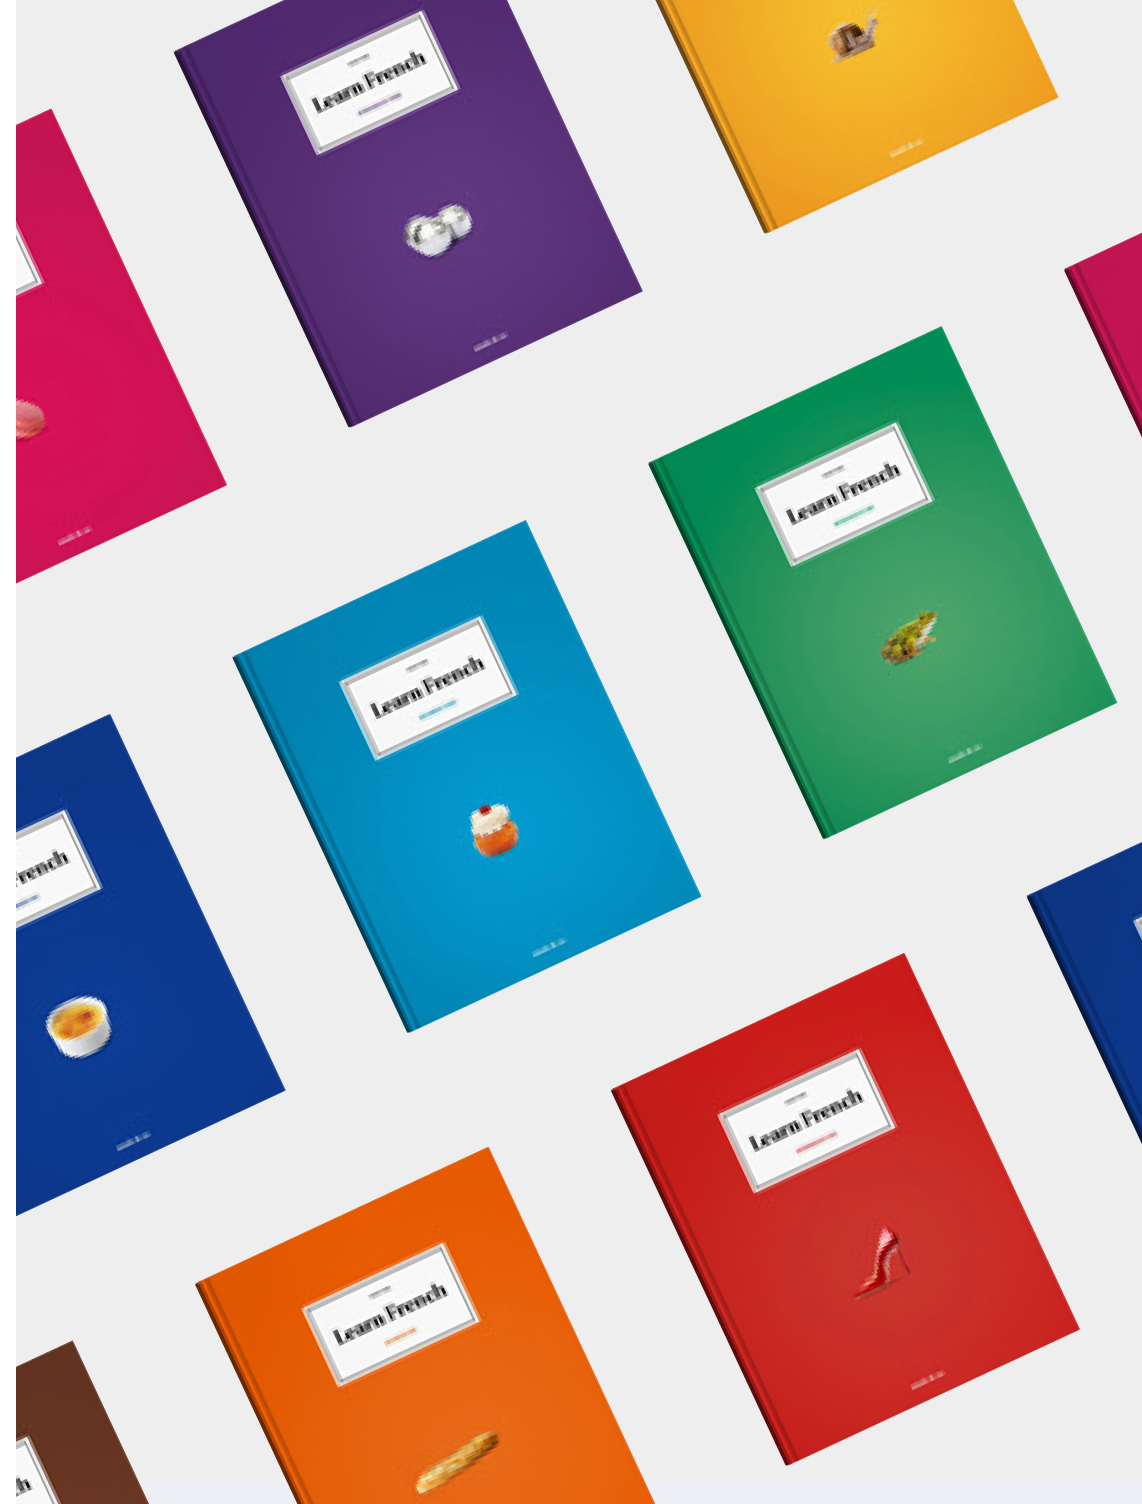

We have put together this brochure to give you more details about our private lessons and group classes.

We hope you will choose us to be on your side but whatever your final decision is, we wish you the very best for this wonderful adventure of learning a new language.

The structured approach

All our services are backed up by the unique method we developed over the last ten years. We designed it to be logical and super efficient. It mixes conversation, vocabulary, grammar and fun that we teach in your mother language until your French understanding is advanced enough. Our method is available in a series of book that we use for all our lessons, courses and classes.

The trained tutors

We have recruited and trained brilliant French teachers. Each teacher follows the same method but has their own personality and accent. All our tutors are French natives who speak English and very often one or more other languages.

Having a lot of other teachers allow you to choose the best one for you. We are proud of offering a unique experience where you can change teachers every lesson if you wish to.
